Container Dimensions	Metric	Lid Dimensions	Metric
Height	142mm	Height	6mm
Width	149mm	Width	145mm
Length	172mm	Length	169mm
Wall Thickness	0.6mm	Wall Thickness	0.6mm
Weight	60.8g ± 5%	Weight	17.6g ± 5%
Volume	2500ml		

Warehousing

Buckets and lids are made from food-grade polypropylene (PP).

Warehousing: sealed unit pallets, which include even numbers of bases and lids.

Filling and closing conditions: max. content temperature during filling 95°C. For stacking content temperature should be lower than 45°C. Put not more than 2 warm containers in the stack.

When outside temperature decreases to 25-30° containers will be more rigid and mechanical parameters allowing stacking for maximal static load as below.

Load on the lower container:
Static (T<23°C) : < 9 kg
Transparent containers < 7 kg

Palletising of containers: product with density 1,6 g/cm³ according to the customer practice giving consideration to the mentioned earlier values.

All materials and dyes used to produce container or lid designed for the food sector are approved for food contact.

All packages from a single pallet should be used immediately after unpacking.

Manufacturer is not responsible for container deformation if stacked with other products on top of finished pallet.

Palletisation at delivery

2856 containers/pallet
2880 lids/pallet
packaging: carton box

Container Colours

Colour and IML options available (minimum orders apply).

Lid Colours

Colour and IML options available (minimum orders apply).
